*Note: This record is solely for exchanging developmental feedback between colleagues. Its reflective aspect informs PgCert and Fellowship assessment, but it is not an official evaluation of teaching and is not intended for other internal or legal applications such as probation or disciplinary action.*

### Part One

Observee to complete in brief and send to observer prior to the observation or review:

#### **What is the context of this session/artefact within the curriculum?**

An introduction to Adobe Creative Cloud, session 3: Graphics and InDesign

#### **How long have you been working with this group and in what capacity?**

Tutor for 5 years

#### **What are the intended or expected learning outcomes?**

- Understand the importance and relevance of Visual Communication for all forms of projects and employment
- Be able to recognise and use principles of Visual Communication
- Use InDesign to make a basic layout page, with its relation to Photoshop and Illustrator
- Start their Digital Presentation for the Experimental Processes module.

#### **What are the anticipated outputs (anything students will make/do)?**

A Digital InDesign document for the Submission

#### **Are there potential difficulties or specific areas of concern?**

It is an Open Teaching space, with lots of distraction so student focus is key.

The Computer screens are large and leave little room for activity, and are placed at different angles to the Tutor so the students find it hard to follow an onscreen task led by the Tutor.

Additionally, the group has Students whose first language is not English so they need to hear clearly above the background noise.

#### **How will students be informed of the observation/review?**

Verbally on the day.

#### **What would you particularly like feedback on?**

The Space, and student engagement.

#### **How will feedback be exchanged?**

Verbally
